A BUNCH OF ITEMS FROM OVER THE SEA

ENGLISH NEWSPAPER TALK OF NICARAGUA.

A Waiting Policy Will Be Expensive in the End They Say—Gully Chosen Speaker of the House of Commons—Floods in Europe—News By Cable.

London, April 11.—In regard to the report that has reached here from New York that the British sloop-of-war Wild Swan has joined the Royal Arthur, the flagship of the British Pacific squadron, at Panama preparatory to their expected departure for Corinto, Nicaragua, to enforce the ultimatum of Great Britain's demanding \$75,000 indemnity for the expulsion from Nicaragua of Mr. Hatch, the British consular agent at Bluefields, it is stated that the announcement is premature.

At the admiralty, in reply to questions on this subject it was said that no orders had been given to the Wild Swan or Royal Arthur which would warrant the statements made. The Times in an editorial on the situation says: "If we are compelled to collect the customs of Nicaragua we will presumably have to pay the costs of the collection in addition to the indemnity. She will find it less troublesome and cheaper to settle with our fourthly. Her efforts to excite the jealousy of America have failed. The justice and good sense of the Americans have proved to strong for the success of this characteristic maneuver. The Americans should only hear our case and demands to acknowledge that our conduct was reasonable and just and to admit that our claims were of such a character as they would themselves have made under similar circumstances. We have assured America that we are not seeking fresh territory. Our object is to obtain an adequate apology for a wrong done and the payment of the compensation which we believe to be due."

The Globe yesterday, commenting on the same subject, remarks: "Like other Central American republics given to pulling the lion's tail, Nicaragua hoped that Washington would flare up in behalf of the Monroe doctrine. But President Cleveland, upon inquiring into the matter, discovered that the quarrel did not concern America. It would be intolerable were the Monroe doctrine so stretched as to cover such international outrages as that of which Nicaragua has been guilty. Fortunately for the continuance of friendly relations between these two great nations there is far less disposition than formerly in America to take advantage of every opportunity to hurl defiance at England. Sensible Americans recognize that the Monroe doctrine, though founded on an excellent principle, requires to be enforced with prudence and discretion."

HUNDREDS OF HOMES RUINED.

Serious Floods Raging in Hungary—Great Damage Is Done.

London, April 11.—A dispatch to the Daily News from Vienna says that serious floods are prevailing in Hungary. Szeged, capital of the country of Csongrad, which is on the Theiss river at the influx of the Maro, is threatened with an inundation. The water now almost covers the dikes protecting the town. In 1879 the town was nearly destroyed by a great flood. In Peeska 240 houses are flooded and 700 people are homeless. The town of Cefits is submerged. Scores of villages are threatened with destruction.

Gully Gets the Chair.

London, April 11.—Mr. William Court Gully, member of parliament for Carlisle, the government candidate, was elected speaker of the house of commons in succession to Sir Arthur Wellesley Peel, who resigned Monday, by the narrow majority of 11. The Parnellites voted against the government. Mr. Gully in politics is a liberal and supports Mr. Gladstone's Irish policy.

Will Attack the Italians.

London, April 11.—A dispatch to the Standard from Berlin says that Menele I, King of Abyssinia, has postponed his visit to Europe. He intends in the autumn to attack the Italians. His troops will be armed with French rifles and are being drilled by a Frenchman. It is possible that the forces of the mahdi will attack the Italians simultaneously with the Abyssinians.

Russian and American Oil Wells.

London, April 10.—A dispatch to the Daily News from Odessa says that the hesitation of the Russian government to commit itself in the negotiations with the American Standard Oil company in the stoppage of the competition between Russian and American naphtha arises from the fact that the American wells show signs of exhaustion while the Caucasian wells are increasing in number and yield.

Steamer St. Paul Launched.

Philadelphia, April 11.—The big steamer St. Paul, which disappointed so many persons on March 25 by refusing to budge from the ways, was successfully launched at 1:05 yesterday at Cramp's shipyard, in the presence of nearly 20,000 persons. There was not a hitch in to-day's arrangements. The steamer was christened by Miss Fannie E. Griscom, daughter of the president of the International Navigation company. The launching was witnessed by the governor, the members of both branches of the legislature and all of the city officials.

Japs Not Afraid of Britain.

Tien-Tsin, April 11.—The British steamship Yik Sang, which was captured by a Japanese man-of-war outside of Taku, having on board 220,000 cartridges shipped at Shanghai by a respectable German firm as "bamboo and steel," has been taken to Port Arthur.

Lashed Farragut to the Mast.

Annapolis, Md., April 11.—John H. Knowles, the sailor who made himself famous during the naval engagement

in Mobile bay by lashing Admiral Farragut to the rigging of the Hartford, died here yesterday. He had been in the navy forty-five years.

HAD A FIERCE BATTLE.

Cuban Rebels Engage the Spanish Troops and Kill 380.

Tampa, Fla., April 11.—Late reports from Havana assert that the steamer Manuilla has arrived from Santiago with 300 wounded Spanish soldiers. They were taken to the hospitals there because the hospitals at Santiago are crowded. A letter from Santiago mentions a battle at Trosones, near the Canto river, in which the Spanish General Salcedo, with 1,000 men, engaged a band of the revolutionists under Rabi. The Spanish loss was said to be 380, while the Cuban loss was four killed and thirty-nine wounded. The Spanish troops were mostly boys. The letter states, and in the battle pity was taken on many who were caught and their lives were spared.

Maceo has organized a large force in Santiago province. Since his arrival, 800 soldiers, who fought under him in the former revolution, have joined him. They are principally from Majaguabo, Maceo's old home.

FURIOUS STORM AT SEATTLE.

Wind Blows Sixty Miles an Hour and Does Much Damage.

Seattle, Wash., April 11.—A storm of wind, hail, thunder, and lightning of unprecedented severity broke over this city about 5:30 p. m. yesterday, and, although it lasted but half an hour, it laid the sound into a fury and tore in all directions, isolating the city from the rest of the world for the night. The wind reached a velocity of sixty miles an hour. Chimneys were blown down, plate glass windows burst in, and tin roofs torn off. A train struck a tree on the Seattle, Lake Shore & Eastern road at Lake station and knocked several cars into Lake Washington. About 800 telephones in the city were burned out at the switchboard.

BATTLE ON THE TAX.

New Fight Begun at New York on the Income Law.

Washington, April 11.—The income tax is again to come before the Supreme court of the United States. This was finally determined yesterday when a new suit to test its constitutionality was begun in the United States Circuit court at New York city. The suit is an action in equity by Charles Allen of Greenfield, Mass., against the Illinois Central Railroad company et al. In his bill of complaint the complainant declares he is informed the company intends to pay under the provisions of the income tax law of 2 per cent on all its net profits and income for the year 1894. The bill then avers the income tax law is unconstitutional and the court is asked to prevent the railroad from paying it.

Legislation in Michigan.

Lansing, Mich., April 11.—The most important bills which passed the house yesterday were: For a convict parole system; establishing boards of county canvassers, consisting of three members; authorizing the use of the Abbot and the Myers voting machines, and for the incorporation of grand and subordinate temples of the Order of Rathbone Sisters. The senate passed the bill repealing the law by which Roman Catholic church property in trust.

Attorney General Maynard in a lengthy opinion held that the municipal commission village charter bill passed by the present legislature, and which has become a law, contains a provision which gives village councils authority to suppress saloons without reference to whether the county has adopted local option or not. The opinion creates much consternation.

Planters Astonished.

Savannah, Ga., April 11.—Heavy importations of rice through this port from Japan are causing a sensation and feeling of uneasiness among the rice planters of this section. In the last two months nearly 300,000 pounds of rice raised in Bassein, Japan, have been brought in through the Savannah custom house, and sold at a price, exclusive of duty, of about 2 cents a pound. The rice was first sent to Germany to be milled, and was then sent to this country.

Pennsylvania Tracks Buried Deep.

Lancaster, Pa., April 11.—Another disastrous landslide occurred last night at Conewago, midway between this city and Harrisburg, on the main line of the Pennsylvania railroad. Hundreds of tons of rock and earth came crashing down upon the tracks shortly before the mail train, due here at 8:40 o'clock, reached the spot. Both tracks are piled high with obstructions and traffic is blocked.

To Investigate a Building Association.

Springfield, Ill., April 11.—The building and loan association committee of the house yesterday adopted a resolution offered by Mr. Lowenthal to investigate the Interstate Building and Loan association of Bloomington, modified only to the extent of striking out the statement "the association is insolvent."

Vetoes by Gov. Holcomb.

Lincoln, Neb., April 11.—Gov. Holcomb vetoed the judicial apportionment bill, dividing the First district and giving this county four judges. The bill did not go into effect until January. He also vetoed the bill amending the state depository law, and the bill creating the state board of immigration.

More Ground for Illinois Capitol.

Springfield, Ill., April 10.—The senate committee on buildings and public grounds ordered to be reported favorably and sent to the committee on appropriations a bill providing for the purchase of additional ground for the state capitol. The ground sought lies south of the building and will extend about 150 feet. The price asked is \$35,000.

W.J. STARR NAMED AS COMMISSIONER

HE WILL SUCCEED THE LATE A. V. H. CARPENTER.

Governor Upham Sent the Nomination to The Senate This Morning—The Daily Grind of Business in Both Houses of the State Legislature—The Bills Passed.

Madison, April 11.—Governor Upham this morning sent the name of W. J. Starr of Eau Claire to the senate as the successor of A. V. H. Carpenter on the State Fish Commission. The assembly killed the bill licensing plumbers and passed the bill compelling street cars to be vestibuled before December, 1896.

The Lange bill providing for the establishment and maintenance of joint workhouses by neighboring counties was passed as was also the measure securing for negroes the same rights as whites in places of public entertainment and amusement.

In the senate the bill regulating caucuses and the nomination of candidates and the bill preserving the form of the standard fire insurance policies were passed.

In the assembly a long fight was had on the location of the seventh normal school. Superior attempted to defeat the bill locating the school at La Crosse, but the assembly refused to indefinitely postpone the bill, and it was ordered to a third reading by a vote of 48 to 24.

Madison, Wis., April 11.—Mr. Treat's bill providing for the treatment of inebriates at county expense was concurred in by the senate yesterday after some opposition. The Prochnow anti-blacklisting bill, with its string of amendments, was advanced to third reading. Senator Conger's bill for the preservation of election ballots was indefinitely postponed. The joint committee on charitable and penal institutions reports a substitute for a half-mile limit outside the National Soldiers' home within which the liquor traffic be prohibited. The substitute practically places the question of licenses in this district in the hands of the sheriff. A minority report was also presented in which the passage of the original bill is asked.

The two bills for the taxation of church property were reported for indefinite postponement by the assembly committee on assessment and collection of taxes. One of the measures was introduced by Mr. Notbohm, and provided for the taxation of all church property. The other bill was Mr. Eaton's, and exempted churches to the value of \$10,000. The Buckstaff bill, providing for a tax of one-fifth of a mill for a period of two years for the benefit of the state university, and making permanent the tax of one-tenth of a mill for the same purpose, passed without a dissenting vote. A long report on the matter of apportioning the state into senate and assembly districts has been submitted by the assembly state affairs committee. The committee recommends that a legislative committee of nine meet after this session and apportion the state.

TROUBLE IN OHIO MINES.

Non-Union Men at Minersville Join the Strikers.

Pomeroy, Ohio, April 11.—Four hundred strikers and sympathizers from Mason, and Pomeroy massed at Minersville yesterday afternoon to force the men working in the Williams mine to lay down their tools and come out. They formed in ranks four abreast and marched up the street to the mine and formed to await the appearance of the miners as they came out at the close of the day's work, being forbidden by the operators to trespass on private grounds. At 4 o'clock the men came out and were met by a committee of seven from the strikers, who used persuasion to induce them to join the strikers. For two hours the twenty-three men held out stubbornly but the 400 strikers massed about them on a vacant lot. Finally the non-union men surrendered and agreed to join the strikers. An assault will be made on the Peacock mine Saturday, it being now the only mine in the bend not paying the scale. One hundred and four men are working there.

Cuba a Republic.

Washington, April 11.—The dispatches from Cuba to-day are expected to bring the information that the revolutionary party has formally declared the independence of Cuba from Spain, has announced the officers of a new government and given to the world the constitution of a new republic. One of the first steps of the new republic will doubtless be to ask for recognition from the nations of the earth. The first nation to which its appeal will be made will be the United States, which is regarded as the foster parent of all American republics. A serious question in diplomacy will be raised by this action. It is not thought the United States will recognize the new government.

Oil at \$1.50 For May Options.

Pittsburg, Pa., April 11.—The oil excitement here begins to resemble the halcyon days of the Pittsburg oil exchange. The Standard yesterday advanced its price 8 cents to \$1.35, this making an advance of 25 cents in the last three days. The May option opened on the exchange at \$1.45 bid, and advanced to \$1.47½ on the first sale. The monthly statement issued by the Standard Pipe lines shows the daily consumption to be 8,300 barrels in excess of the daily production. The speculative market ran up to \$1.50½ and closed at \$1.50.

Love for Her Kitten Cost Her Life.

Fort Wayne, Ind., April 11.—Josie Nehran, a child 4 years old, saw her kitten jump into an open cistern, and to rescue it jumped in after it and was drowned. She was not found for an hour after.

BIG COAL STRIKE MAY BE REPEATED

OLD TROUBLE MAY BREAK OUT AGAIN.

Ohio Coal Miners and Operators Said to Be Agreed on War With Pittsburg—The Situation Full of Danger at Present—Leaders Refuse to Discuss the Situation.

Columbus, Ohio, April 11.—There is now little doubt that the war between the Ohio and Pittsburg coal operators, predicted Sunday night, will be inaugurated in due time. It is known that the sentiment of the Ohio miners is in favor of regaining and retaining the lake trade, lost by the failure of the Pittsburg district to live up to the interstate agreement, and unless matters are speedily adjusted and the differential restored, the cut in Ohio is sure to come. From a reliable source it is learned that Ohio operators and miners have practically reached an agreement as to a line of policy and the war once inaugurated will be conducted on lines likely to prove very troublesome, if not disastrous, to the field where the operators have forced down the scale to the serious detriment of the Hocking and Sunday Creek interests.

Yesterday the board of control of the Ohio Coal association met here, but it is given out that nothing definite was transacted, it being deemed advisable to wait until some definite action is taken in the Pittsburg district. The refusal of the latter to enter an interstate conference of operators and miners will probably expedite the declaration of war, and it is not improbable that it may lead to another general suspension of work.

At present the indications point to a war between the Ohio and Pittsburg districts only, but the complications in this connection make a general suspension not improbable, and the scenes of one year ago may be re-enacted throughout all the mining districts of the country. The situation is full of serious complications, and the future is not promising. It is believed that the question of a general and sweeping reduction will be submitted to the local unions in Ohio, and it is probable an agreement will be reached with Illinois and Indiana. The officers of the national union decline to express an opinion on the possible outcome, but admit that the outlook for a general agreement is not favorable.

INCOME TAX CASE.

Ruling of the Supreme Court Will Cut Off Millions of Revenue.

Washington, April 11.—The embarrassment of the government because of the decision of the United States Supreme court as to the income tax case is declared to be very serious. Estimates made at the treasury department by the most skilled experts are that there is not likely to be collected under the law more than \$12,000,000 instead of the \$100,000,000 which was predicted for it. The declaration of the United States Supreme court that the tax on incomes from land is unconstitutional is found upon close inspection of the text of the decision to warrant the conclusion the income tax upon most, if not all, of the proceeds of land is unconstitutional. While no intelligent estimate can be made as to the effect the several deductions will have upon the aggregate revenue to be derived from the act, it is feared at the treasury that the original estimate of \$30,000,000 will be reduced at least one-half, and that the total collections may not yield more than \$12,000,000. The loss of revenue, however, is not the only cause for regret in connection with the decision of the court. The even division of the court on the main question involved will undoubtedly result in embarrassing and expensive litigation, thus adding to the cost of collection and contributing to the withholding of revenue.

Monson Threatened with Ruin.

Monson, Mass., April 11.—Monson, which was visited by a disastrous fire two years ago, was again visited by flames last night, and at midnight the flames were still beyond control of the firemen and aid had been summoned from Palmer. The buildings then burned were Green's blocks, formerly the old Congregational church, Gray's hall and two tenement houses. The wind was fanning the flames directly toward the thickly settled portion of the village, and the principal buildings were threatened.

Outlook Is Gloomy.

Massillon, O., April 11.—President Michael Rathford of the Ohio Mineral association, says the outlook is so gloomy that it is impossible to predict from one day's end to another just what is going to happen. The officers of the Ohio miners will soon be obliged to meet the operators and determine upon a scale. The task will be a difficult one under existing circumstances.

Declare Their Independence.

Tampa, Fla., April 11.—The elite of Cuban society gathered last night in response to the call for a celebration of the greatest event in the history of Cuban revolutions, the declaration of independence. The Liceo Cubano was crowded as never before. Ladies old and young, little boys, and gray-headed veterans, all participated, while a Cuban band played patriotic airs.

Peace Negotiations Continue.

Shimonoseki, April 11.—The peace negotiations were continued yesterday between Count Ito and Li Hung Chang. The conference lasted two hours. Viscount Mutsu, one of the Japanese commissioners, was ill, and was not able to attend the conference.

No Hope for Comptroller Mansur.

Washington, April 11.—The illness of Charles H. Mansur, of Missouri, assistant comptroller of the currency, has taken a turn for the worse, and his physicians fear he can not live twenty-four hours.

SHEBOYGAN MAN DEAD IN A WELL

Well Caved In When He Was Forty Feet Under Ground.

Sheboygan, April 11.—Charles Petermann of this city, was crushed to death while working in his well this morning. Petermann was forty feet below the surface of the earth when the walls of the well caved in burying him. He leaves a wife and a large family.

PARK BILLS PASSED.

Morrison's Four Measures Go Through the Illinois House.

Springfield, Ill., April 11.—The bills giving the West Chicago park board power to make desired improvements and levy a special tax and enlarge the boulevard system came up in the senate yesterday as a special order on third reading. The first bill was passed by a vote of 32 yeas to 2 nays. The remaining bills were also passed and Morrison gave notice of a motion to reconsider the vote by which the bill relating to the issuance of bonds passed.

A message was received from the house stating that that body refused to recede from its amendment to Green's bill appropriating \$150,000 for the reconstruction of the southern hospital for the insane at Anna. The house reduced this appropriation to \$86,000 and a conference committee, consisting of Chapman, Aspinwall and Campbell of Hamilton was appointed.

The lobbies of the house were crowded with women from all over the state. They are here in the interest of the woman's township suffrage bill, which is now in the hands of the committee on election. John W. Eia, George Struckland, D. D. Healy, John N. Cunningham, John Ritter, Theodore Jones, Theodore Gestefeld, O. W. Nash and Thomas McNichol of Chicago are here and are working judiciously for the county civil-service bill. It is in the form of an amendment to the Cook county budget bill of 1887 and provides for civil-service rules in Cook county similar to those recently adopted by Chicago.

The resolution that the senate adjourn to-day until 10 o'clock Wednesday was adopted. Mr. Ford offered a resolution that the question of a constitutional amendment in regard to judges be submitted to a vote at the next election.

The arbitration bill was called up by Jones of Cook. The bill was prepared by the judiciary committee as a substitute for the bills offered by Jones, Bryan and McLauchlan. Berry offered an amendment providing that three members of the state board of arbitration shall be appointed by the governor and confirmed by the senate and that not more than two shall belong to the same political party. McKenzie offered an amendment to the amendment, fixing the compensation of the arbitrators at \$5 a day instead of \$2,000 a year. This was rejected. Jones of Cook then offered an amendment to the amendment providing that if the legislature is not in session at the time the act takes effect the governor may appoint the members of arbitration board to serve until the next session. This was opposed by Berry, who said that the bill would pass with the emergency clause, and an amendment was unnecessary and might do harm. Jones' amendment was lost, the democrats voting for it and republicans against it. The question then returned on the original amendment of Merry, and it was adopted by a vote of yeas 86; nays, 59.

The house passed the bill of Mr. White of Whiteside providing that where the 2 per cent school tax is not sufficient to defray the expenses of the public school in any district for a period of nine months each year an additional tax, not exceeding 3 per cent, may be levied for that purpose.

Bills were introduced as follows: By Mr. Cochran.—To regulate the civil service of the state. It provides for the appointment of three commissioners by the governor, at a salary of \$3,000 per annum. These commissioners will classify the civil service and prepare questions for examinations, which are to be held by the county superintendents of schools or by the civil service commission in cities in which there is such a commission. All appointments are to be made by the commissioners. The head of a department may discharge an employee, but he must notify the commissioners of the cause of the removal, and the removed employee shall have the right to a hearing. By Mr. Smith.—To regulate the manufacture and sale of any substance designed to be used as a substitute for butter.

Third Body Recovered.

Wheeling, W. Va., April 11.—At 4:30 o'clock yesterday the men clearing away the debris of the Chapman and Hutchinson buildings found the body of Harry Cowl, a Western Union messenger boy, in Alley 9. The body was in a standing condition with the hands raised above the head, as if to defend him from the falling debris. He was, with a sister, the only support of a widowed mother. This makes three bodies recovered from the ruins and three still in the ruins.

White Screwmens Give Up the Fight.

New Orleans, La., April 11.—The first break in the white screwmens, or common loaders' strike, which has caused such trouble on the levee in New Orleans for months, occurred yesterday when a large number of the men agreed to work for any employer, whether a member of the union or not, and with negroes.

Strikers Sent to Penitentiary.

Brooklyn, N. Y., April 11.—Judge Moore yesterday sentenced twelve of the prisoners who had been found guilty of rioting during the recent strike on the trolley lines. The sentences ranged from sixty days to one year and three months, the heaviest being for cutting trolley wires. All were sent to the penitentiary.

All Not For Confederation.

Halifax, N. S., April 11.—Cablegrams from St. John's, Newfoundland, state that the people of Outer Cove, Middle Cove, Flat Rock, and Torbay, outlying settlements near St. John's, yesterday held public meetings and adopted resolutions opposing confederation.

FLOODS RUN HIGH AND SPREAD HAVOC

EASTERN STATES TELL THE FORCE OF THE RISE,

Water at Various Places the Highest in Thirty Years—Bridges Carried Away And Much Damage Done—Pennsylvania Line Suffers Heavy Loss.

Port Jervis, N. Y., April 11.—The Susquehanna and the Delaware rivers are becoming at an alarming rate. The height reached by them surpasses that of any other mark since 1865 and in some places since 1862. Hundreds of people have been driven from their houses, property has been damaged to the extent of thousands upon thousands of dollars, bridges are to a great extent in danger of being swept away, and in many places boats are plying to and fro, taking furniture from exposed houses to places of safety.

Without warning the large wooden bridge over the Susquehanna river, connecting Susquehanna and Oakland, Pa., went down yesterday with a terrific crash. Several persons were on the bridge at the time. All except Arthur Christian escaped by running to the Oakland side, reaching land before the bridge was carried away. Christian clung to the railing and was carried down the river. He retained his hold and was lodged in a tree several rods from shore. He remained in the tree for two hours, beseeching the people on the bank to come to his rescue. Different means were tried to bring him to shore, and at last a boat fastened by a rope was floated to him.

MANY BRIDGES IN DANGER.

From Easton to Trenton, N. J., General Alarm Is Felt.

Lambertville, N. J., April 11.—Never since the freshet of 1862 has the Delaware river been so high as it now is. All the houses on the river front are flooded and families are moving their furniture in boats. The railroad bridge at Martins Creek is under water, and nothing can save it from going down, but heavily loaded cars were run on it during the night. Should this bridge give way, all the bridges from Easton to Trenton will probably go down. Many factories have been flooded, and the aggregate loss will be great.

Susquehanna, Pa., April 11.—The Susquehanna river has reached the highest point since 1865.

Wilkesbarre, Pa., April 11.—The Susquehanna river was eighteen feet above low water mark at 9 o'clock last night. The low lands on the west side of the river, between Pittston and Buttonwood, are flooded. Many of the truck farmers had to remove their live stock to higher grounds in a hurry. The farmers on the low lands will suffer the loss of an early crop of vegetables.

Belvidere, N. J., April 11.—Much damage has been done by the freshet in the Delaware river here. The plant of the Belvidere Water Company has been considerably damaged. Dwellings on Water street were so flooded that the inmates had to be taken away in boats. The large icehouse of Boardman Bros. on the outskirts of this city was swept away with thousands of tons of ice. Farmers have sustained great losses all along the river. Men guarded the saw mills and lumber yards all day yesterday. The waters are receding.

RAILROAD BEDS UNDER WATER.

Pennsylvania Line Liable to Suffer Heavy Loss.

Bordentown, N. J., April 11.—The piers here are submerged, and one and one-half miles of railroad bed of the Pennsylvania road between this place and Trenton are under water. The Delaware and Raritan canal locks are covered with water to a depth of three feet. The Pennsylvania Railroad company has placed heavy cars on the railroad bridge over Crosswick's creek to keep it in position.

Flemington, N. J., April 11.—Residents of Stockton fear that the canal locks will break over the city and flood them. The situation at Washington is alarming. Branch river, which divides the towns, is overflowed.

Trenton, N. J., April 11.—The Delaware is still rising. Walton's flour mill, S. K. Wilson's mill, and the Titus woolen mills have had to shut down. The river here is wide and no great danger is anticipated.

Life Lost Near Kingston.

Kingston, N. Y., April 11.—Details of the damage from the spring flood in Ulster and Delaware counties are fast coming in. John Rozpach, keeper of the storage reserve of the Kingston Water company, was drowned while trying to save his household goods from destruction. Ulster and Delaware trains have been resumed, but extensive damage has been done along this line, and also on the Delaware and Hudson canal. Much damage is reported to property in Saugerties and Rosendale.

Genesee, N. Y., April 11.—The Genesee river has again overflowed its banks. Traffic between here and Leicester is cut off.

Fourteen Feet Above Low Tide.

Troy, N. Y., April 11.—The biggest freshet seen in the Hudson in years is threatened at this point. The water is fourteen feet above low tide water, and all the wharves, from the state dam south, are submerged. The wharf of the Citizens' Steamboat line is away under water. All ferries have been suspended, and damage has been done to property in the cellars of warehouses.

Sunbury and Williamsport, Pa., Safe.

Sunbury, Pa., April 11.—The main stream of the Susquehanna river here has a nine-foot flood, the north branch from Sunbury to Wilkesbarre a twelve to eighteen foot flood, and the west branch between Sunbury and Williamsport the overflow is about eight feet. The water is at a standstill and no further rise is expected.

A FINE COLLECTION AT MILTON COLLEGE

MANY MARINE INVERTEBRATES RECEIVED.

Assortment is a Rare One And Will Be of Value to the School—Wedding At Afton—Trains Run More Conveniently—Cooksville's Mill Starts Up—Other County News.

Prof. Kumlien of Milton college, has secured through his friends at the Smithsonian Institute, Washington, a valuable addition to his department. It consists of more than two hundred species of marine invertebrates ranging from the lowest porifera (sponges) to the higher crustacea. In as much as the college had no marine forms he naturally feels elated over the addition. It will of course prove of great value to the zoology, geology and physical geography classes. The college museum is becoming quite valuable and has long since proven itself indispensable for scientific instruction.

COOKSVILLE'S WEEK'S NEWS NOTES

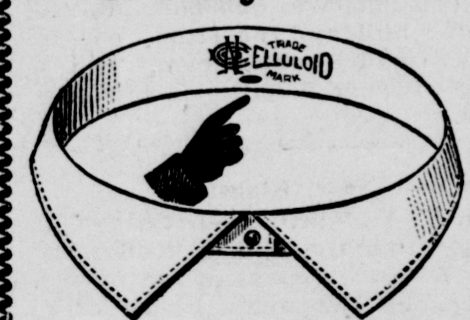

Gristmill is Again Running—Surprise Party At W. B. Porter's Home.

COOKSVILLE, April 11.—The gristmill is doing good work now. The frame is up for the new creamery here and they expect to have it running by May 1. Mr. and Mrs. Meridith, have a little boy, born April 1. Mr. and Mrs. W. B. Porter had quite a surprise last Sunday. G. Newman of Omaha, came with W. W. Porter of Janesville, and all the family of Newman gathered at their house. G. E. Newman visited Janesville last week. Mrs. Agnes Robertson has been sick with the grip, as has also Hans Hanson and Albert Howe. E. M. Stebbins and wife started for Vermont last Thursday on a visit. They expect to visit Boston, where Mrs. Stebbins' father is in business, before their return. George Wilder, who is attending the university at Madison, spent his vacation here. W. H. Keeley, a former teacher here, made old friends a call last week. He is teaching in Whitewater now. Mr. Newkirk has moved into the house vacated by C. S. Preston. Mr. Lee has moved into Julius Savage's house. Mrs. Rice was called to Magnolia last Friday to visit her sick sister. Albert Howe has shot two wild geese this spring. Belle Rice is back from Janesville, where she has been for the past two weeks. Mrs. Avis Brown made a visit to her parental home last week. Her husband came after her Sunday. She is to teach in East Center this spring. Mr. and Mrs. Howe, of Newark, visited their son in this place last Saturday and Sunday.

W. G. WAITE OF AFTON, MARRIED.
Ceremony Performed at Woodstock Where He Now Lives—Other News.

AFTON, April 11.—William G. Waite, only son of Mr. and Mrs. A. S. Waite, of this place, and Miss Lillian B. Allen, of Woodstock, Ill., were married at the residence of the bride's parents, at Woodstock, Ill., last Tuesday, at 6 o'clock in the evening. Rev. Mr. Hay, pastor of the Presbyterian church, officiating. Only a few relatives and intimate friends witnessed the ceremony. The young couple left for St. Paul on a short bridal tour, and expect to stop off at Afton on their return trip, for a visit with the groom's relatives, all of whom reside here. Mr. and Mrs. Waite will make Woodstock their home at present. Mr. Waite being in the employ of the Chicago & Northwestern railway at that place. Afton people have no reason to complain at present about daily traveling facilities, for it appears that twenty passenger trains are now placed at the disposal of our people, fourteen of which are run by the C. & N. W. Co. and six by the C. M. & St. P. management. Carpenters Holzappel and Mc

After THREE MONTHS of Daily Wear

This Collar Is Still in Good Condition.

That's because it's the "CELLULOID" Collar. Its original cost was 25 cents, and it cost the wearer nothing after wards to keep it clean. When soiled, simply wipe off with sponge or wet cloth.

These collars and cuffs are waterproof, and are the only waterproof goods made with an interlining of linen; therefore the only ones that can last and give absolute satisfaction. Every piece of the genuine is stamped as follows:

Refuse anything that is not so marked, and if your dealer has not got the right kind send direct to us, enclosing amount, and we will mail you a sample postpaid. Collars 25 cts. each. Cuffs 50 cts. pair. Give size, and state whether stand-up or turned-down collar is wanted.

THE CELLULOID COMPANY,
427-29 Broadway, NEW YORK.

Crea began work Tuesday on the Hills meat market building, which is located on Mr. Hills' lot just north of his residence. This new enterprise will prove a great convenience for Afton people the coming season. H. N. Miller's mansion is being treated to a fresh coat of paint, J. F. Bolte wielding the brush. G. R. Charles is off on an advertising tour for some of the Bower City merchants this week.

THE HAPPENINGS AT FOOTVILLE.

Family Overcome By Gas—Easter Concert Planned—Other Notes.

Mrs. H. Harper is spending the week in Brodhead, being called there by the illness of her father. Mrs. Evans of Durand, is visiting her parents, Mr. and Mrs. S. F. Buck. The Modern Woodman of Footville will hold an Easter dance at Masonic hall on Monday evening next. Master Paul Braden who has been visiting here the past week has returned to his home at Waukesha. Mr. and Mrs. Carlson came near being asphyxiated one night last week, but are recovering. Miss Clara Egerton and the Misses Peterson are home for their vacation. There will be an Easter concert at the M. E. church next Sunday evening. A cordial invitation is extended to all. Mrs. Charles Hawk visited at Brooklyn a few days ago. Willie Ryan is again able to attend school. Dr. Griswold our enterprising young dentist of St. Paul, now has his office at Mrs. Bailey's where he is doing a flourishing business. Warren Cain was a pleasant caller at Mr. Harper's Saturday evening. The W. F. M. S. met with Mrs. Becker on Friday last. Mrs. Frank Ashby Sundayed at her parental home just east of the village. Mrs. E. Tollefson is home for her vacation.

The News of Porter.

PORTER, April 11.—Road taxes here are to be paid in labor this year. They are going to purchase a new road scraper and with both at work it is to be hoped we will have good roads. Mr. Handke of Indian Ford, has purchased the Pyre farm for \$56 per acre and has moved here. School in the Eagle district commenced last Monday with Miss Minnie Hayward as teacher again. Duck hunting is the rage on the lake these days. Jens Jensen is going to live in Mrs. Jane Fessenden's house this summer and raise tobacco. Harry Huggert is moving onto one of E. H. Wixom's farms near Milton and his son Thomas will work the farm recently vacated. Leroy Fessenden has turned his tobacco ground into an onion field, with George Peters as overseer. Miss Clara Pound spent last week with her aunt, Mrs. W. H. Brady in Burr oak. Our choir is leaving nothing undone to make their Easter party one of the most pleasant of the season. Remember the date April 15, in Fulton.

LOWELL BUYS A ROCKFORD STOCK

The Janesville Hustler Now Owns Wm. Van Arnam's Store.

"Wm. Van Arnam, the veteran hardware dealer, has decided to retire from business, after an active service of forty years, and has sold his hardware store on West State street to the Lowell Hardware company of Janesville, who have already taken possession," says the Rockford Register Gazette. "The deal was made through O. R. and C. N. Gorman. The new firm have the reputation of being hustlers and will go after their full share of the local trade."

Sick headache, constipation and indigestion are quickly cured by De Witt's Little Early Risers, the famous little pills. C. D. Stevens.

THE RIVER IS VERY LOW JUST NOW.

For This Time of the Year Old Rock Seems to Be Under Average.

Rock river, for this time of the year, is very low. In May, 1881, the river was just seven feet higher than it is at the present time. At that time old Rock took such a high jump that the high water mark was reached, and the water came pouring in the keyhole of the Veeder printing office, or what is now the Riverside laundry.

JANESVILLE IS IN ON A ROAD SCHEME

INTER-STATE DRIVE PLAN INCLUDES THE BOWER CITY

Plan Is to Extend Chicago's Sheridan Drive to Milwaukee And Then Branch Out From the Cream City—Bills to Be Put Before the Legislature At Once.

Janesville may "come in on" a good road scheme that is started in Chicago through which Wisconsin and Illinois are to join hands in making one of the most elaborate park and pleasure driveway systems in the country. At least that is the plan which prominent men of both states have agreed to push through. Last night a committee representing the north shore property owners and supporters of the Sheridan drive left Chicago for Madison, where arrangements will be made to put the matter before the Wisconsin legislature. The plan contemplates the completion of the Sheridan drive into Milwaukee. By the provisions of the bill it will be also possible to run a system of drives from each of the cities throughout the network of towns adjacent. When completed it is possible that Milwaukee will be connected with Oshkosh and Fond du Lac on the north, Waukesha, Janesville and Madison on the west. After perfecting its park system, Chicago may push drives through Oak Park and eventually Elgin, Aurora and Joliet. It is the idea of those who now dream of the scheme that the best macadamized roads will afford delightful driveways as well as becoming invaluable to cities and towns for business reasons.

Good-Roads Association Interested.

Otto Dormer, secretary of the Wisconsin Good-Roads association, has undertaken to prepare the bill which is to be submitted to the state assembly. A measure will be drafted following the provisions of the bill now on third reading in the Illinois legislature and which is expected to become a law shortly. This measure is known as house bill 74 and senate bill 278, owing to slight modification, and was designed primarily to give the state perpetual control of riparian rights from Lake View to the state line.

It is expected that with the announcement of this project strong interest will come from the cycling enthusiasts. Chicago's wheel manufacturers and her scores of clubs enrolling thousands of members are counted on as active auxiliaries in forwarding the enterprise. Wheelmen who have spoken declare the road to Milwaukee will offer the best course for centuries in the country. So interested are wheelmen and wheelwomen, it is declared that petitions will be sent both to Springfield and Madison praying for the passage of the bills.

LEE SING A WILY CELESTIAL

Hard Work to Divorce Him From the "Washee Machine"

Just why Lee Sing's washing machine didn't change cars until it reached Madison, while he took another train here, was something that Lee Sing couldn't understand and caused a good deal of palaver at the St. Paul depot yesterday. Lee Sing is a mild mannered slant eyed celestial who runs a laundry at Baraboo. He went to Chicago and bought the washing machine that caused the trouble and had it shipped by the United States Express. It came as far as Janesville on the same train as the owner, but Lee Sing's ticket read "Chicago to Janesville" while the washing machine was billed through to Madison and was to be transferred to the C. & N. W. road there. It took some time to convince the Chinaman that this proceeding was all right; but he finally saw the light and he and the collar-cleaner parted company.

Our patrons will find DeWitt's Little Early Risers a safe and reliable remedy for constipation, dyspepsia and liver complaints. C. D. Stevens.

The Difference in Men.

The Columbia is honestly made of the best material money will buy, the workmanship being of an unusually high standard. It is a well known fact that from the same steel one workman will produce an ax that will hold a remarkable edge, while a dozen workmen, with apparently the same facilities, cannot succeed in producing an edge at all. Building bicycles is parallel to making axes, there is a secret in working the material known only to one man in thousands. The Columbia people have that man, which accounts for the fact that the Columbia is the highest of all grades. It is the best seller because it is the best bicycle. LOWELL HARDWARE CO.

Room to Rent.

We have the largest stock of shoes in the city, still we have plenty of room, even room to rent. We are figuring for one of the best stocks in the state. We would buy a stock every day in the year if we could get the right price. We have no trouble to sell the goods. Trade growing every day. Come to us for bargains. BROWN BROS. & LINCOLN.

ALL members of W. B. Sargent Post are requested to be present at the regular meeting Friday night of this week, as business of importance will come before the Post. By order of M. McDonald, commander. O. E. Kimberly, adjutant.

THE DAY'S NEWS OF THE STATE

THE second annual session of the Wisconsin Blue Label league convened at Appleton Tuesday morning, with a good attendance of delegates. The league is a confederation of cigar makers' unions of the state, the object of which is to promote the use of the blue label of the cigarmakers' union in localities where no union organization exists, and in all ways to encourage the use of the union label and union-made cigars.

THREE deaths occurred in the Culver family at Richland Center last week. On Monday Mr. Culver died of pneumonia and was buried on Wednesday. On the evening of the day of the funeral his wife died, and the next day, at an early hour, her mother who lived with them, passed away. All three deaths were caused by pneumonia.

TEN thousand dollars' worth of city bonds have been sold by the city of Oconto to a Chicago firm at a premium of \$505. The bonds bear six per cent interest. Work will now resume on the sewerage system which was suspended on account of the frosts of the winter.

The attendance at the Y. M. C. A. rooms at Racine this year was 8,258. It cost \$1,500 to carry on the work and there is a deficit of \$847.

THERE is quite a flood of counterfeit silver dollars in Kenosha.

THE TOWN TALES OF A DAY.

By far the greater portion of riders purchase wheels for business purposes and general use. They demand a machine fully equal in construction, finish and design to any on the market, but with sufficient additional weight to insure immunity from breakage under any and all circumstances. The Waverly meets all these requirements. A. H. Sheldon & Co.

HORSES are cheap; corn and oats are cheap, and buggies were never known to be as low. We are making a line this season superior in every respect to any we ever before made, but we are not getting as big a price. Wisconsin Carriage Top Co.

THE jewel process stoves are as fine a gasoline stove as there is made. Thousands upon thousands are in use and not a single instance can be named where they have not given the utmost satisfaction. We now have them on exhibition. A. H. Sheldon & Co.

MOST shoe dealers when they advertise a sale and quote a price say for instance \$1.00 up. We do different, we say any shoe in the house "\$1.00 down." And there are plenty of them worth \$2.50 and \$3. Why do the same? Hard Times Store Co.

THE best material possible to get we use in our buggies. Would like to have you come and examine. But we don't get the best prices by any means. No high-grade buggy is sold as cheap as we sell ours. Wisconsin Carriage Top Co.

WE'll name the lowest prices any one ever heard, next Saturday; it's our Easter sale day, and our Mr. Browne, formerly at the Golden Eagle, is trimming the front of the store for the occasion. Goodman.

THAT our line of buggies are considered the best we know, as we have now sold more than any other year. Everybody seems to want the Wisconsin Carriage Top Co make of buggies.

EASTER in all its glory will be here next Sunday. We have made arrangements for it with a lot of souvenirs that are beautiful in the extreme. F. C. Cook & Co.

If you are in doubt as to what to get for an Easter souvenir, we can assist you, as we've a line of stuff as fine as can be made. F. C. Cook & Co.

THE sad are made happy, and the joyful more joyful by coming into our store. We name bargains. That's our business. Port, Bailey & Co.

It's a souvenir for Easter you wish we can help you, as we've a line that is suggestive every minute you look at it. F. C. Cook & Co.

WE can show you the finest line of gent's shoes from \$1.50 to \$3 in the city. Call and we will convince you of the fact. Lloyd & Son.

NOT out of sight, not out of town, but right in front where we are seen hourly. Any shoe in the house \$1.00 down. Hard Times Store Co.

GENT's and ladies' shoes \$1 'til they are gone. These are not shoddy goods, but a few broken sizes; all honest goods. Lloyd & Son.

LOST—Will the parties who took the pug dogs from Oak Hill cemetery, return them and save trouble, as they are known.

WE have a line of neckwear especially selected for Easter that is a marvel of beauty, and noted for cheapness. Ziegler.

FOR SALE CHEAP—One handsome 3 year old colt, would be cheap at \$65, can be bought right if taken at once. F. A. Taylor.

FRANK BROWN, formerly of the Golden Eagle, is with us now. We have an Easter sale Saturday. Goodman.

CARPETS, rugs and mats of all kinds and sizes cleaned without injury. Leave orders at Janesville Steam Laundry.

LACE curtains and pillow shams beautifully laundered, and rag carpets washed at Janesville Steam Laundry.

YOU will be a welcomed visitor at our store and an esteemed patron. Lloyd & Son.

AN Easter sale of suits at Goodman's, 15 West Milwaukee street next Saturday.

EASTER neckwear in abundance. All the late things now exhibited at Ziegler's.

THE RICE BOYS HELD ON THEFT CHARGE

ALLEGED CHICKEN THIEVES WILL STAND TRIAL.

Examination Came Off at Monroe Yesterday and Resulted in Their Being Bound Over to Appear Later On—Many Farmers Were On Hand to Tell Their Story.

The examination of Charles and Clarence Rice, who are charged with extensive hen roost robberies, and are said to have sold much poultry here, was conducted in the Monroe court house yesterday afternoon before Justice Abbott, and they were held to bail at \$300 each. They are charged with burglary on complaint of Fred Mevius, who claims they broke into his chicken house and stole forty-six chickens. The defendants are sons of Freeman Rice, of old Decatur, and the complainant resides near Broadhead. District Attorney A. S. Douglas prosecuted, and C. W. Wright was associated with Ed. F. Carpenter of this city, in the defense. William Rice, another brother, was placed under \$300 bail at Broadhead yesterday for robbing the roost of Fred Zitz. Farmers between Broadhead and Beloit, and Beloit and Rockford are also said to want the Rice boys for chickens stolen from them, several of the farmers testifying in the examination.

The present crown prince was recently invested with his new rank in London by a commission sent all the way from Siam for that purpose.

Had Not Bothered Him.

Young Husband (laying down a comic paper)—All this tomfoolery about women's extravagance makes me tired. We have been married two months and you haven't asked me for a cent.

Young Wife—Of course not. What would be the use of bothering you for every little thing I want, when it's so much easier to have the things charged.—N. Y. Weekly.

Assailed by a Worse Fear.

"James," said his wife, with sudden suspicion, "I see a hair—a white hair—"

"No, no!" he gasped.

"On your coat collar."

"Is that all?" said James. "How you frightened me! I thought you meant you saw it in my head."—Chicago Tribune.

Where the Fun Comes In.

Harry Dunn (who has been cleaned out at poker for six consecutive nights)—I shouldn't think it would be much pleasure for you to play cards with me. There's no uncertainty about it for you. Charley Doemup (raking in the boodle)—Oh, yes, there is! I never know how much money you have with you.—Puck.

Theatrical Item.

First Club Man—Miss De Vere is about to leave the stage.

Second Club Man—You don't tell me so? When is she going to retire?

First Club Man—She hasn't decided on the exact year, don't you know, but she will begin her farewell tour next season.—Tammany Times.

Happiness Was Incomplete.

Friend—Have you completed your novel?

Author—Not yet, I am sorry to say. I have made six couples happy for life, but I have still got an old general and a shoemaker's widow on my hands, and somehow they won't match.—Fliegende Blaetter.

A Cheap Funeral.

Housekeeper—Pretty specimen you are to ask for help! The dirt on you is an inch thick.

Tramp—Yes, mum; times are werry hard, mum, and funeral expenses comes high. I'm leavin' it on so when my time comes I won't need buryin'.—N. Y. Weekly.

Not to Be Entrapped.

"If I should ask you to marry me," he said, smiling softly and sweetly, "would you say 'yes'?"

"My dear fellow," she responded, in a tone of mild reproof, "you talk to me as if I were receiving my first proposal."—Detroit Free Press.

A Big Promise.

Algernon—Do you believe in love in a cottage?

Arasinta—Certainly; provided the cottage is at least three stories high, with all modern improvements and situated in a fashionable neighborhood.—Brooklyn Eagle.

His Trouble.

First Student—How is it you pay so little attention of late to your personal appearance? You should remember "clothes make the man."

Second Student—Yes, but I can't find a man to make the clothes.—Fliegende Blaetter.

She Took Him Down.

Titled Foreigner—I dare say you have no family plate, descended from generation to generation.

Untitled Native—Oh, no! My family has always been able to have a plate for each member.—Puck.

Bashful.

A DIFFERENT KIND OF POKE.

Mrs. McRafferty—And why do yez Salvation Army girls wear them funny bonnets?

Salvation Girl—Why, this isn't funny; it's what is called a poke.

Mrs. McRafferty—A poke, is it? Well, if ye had the poke on yer head that Pat gave me on my head last night you couldn't have much salvation in yer soul.—Truth.

Intervention Not Wanted.

Mamma—Why didn't you ask God in your prayer to make your brother well?

Robbie—Cause then I'd have to go on wearing his old clothes made over.—Chicago Inter Ocean.

Consistent.

"D'Aubyn is just too vain to-day for any endurance. He got the portrait of his grandfather hung on the line." "Well, it ought to be. So was the grandfather."—Washington Star.

How Disappointing!

Bertha—What a pretty little jacket that is you are wearing; it just looks like silk.

Anna—Why, it is silk! Bertha—What! Silk? I thought it was cotton!—Unser Frauen.

Historical Furniture.

Kitty—Not one of our parlor chairs stands straight; they have all lost a castor or something.

Tom—Ah! I suppose every one of them has a history.—Life.

FOR SALE

A Model Milling Plant.

The recent death of the owner makes the sale of this plant necessary. It consists of a flouring mill, packing-storage house and two elevators.

The mill is 60x60 feet, four stories and basement constructed of stone, brick and frame, the frame part being iron-clad. Capacity 300 barrels per day.

The storage-packing house is 30x120 feet two stories. The elevators each have a capacity of 30,000 and 50,000 bushels. A branch railway track runs between the mill and packing-storage house. This plant was A.L.I. remodeled and made new in 1894. The business of this plant has paid the owner, up to his death, from \$8,000 to \$20,000 per year. This plant cost over \$80,000 and is the finest one in the northwest. It is run by water power and situated in Janesville, Wis.

except the large elevator which is at Lake Preston, S. D. There is no encumbrance and it will be sold upon easy terms or can be exchanged for first-class real estate.

THIS DAY IN HISTORY

1713—Treaty of Utrecht and end of the war of the Spanish succession.
1794—Edward Everett, American orator and statesman, born at Dorchester, Mass.; died 1865.
1814—Napoleon at Fontainebleau signed the act of abdication.
1877—Southern hotel burned at St. Louis; over 100 deaths.
1884—Charles Reade, English novelist and dramatist, died; born 1814. Reade established his reputation by the novel "Peg Woffington" and "Christie Johnstone," published in 1823. "Never Too Late to Mend" and "Put Yourself in His Place" are among the strongest purpose novels of the time. "The Cloister and the Hearth" has been classed by critics as the very best of his works.
1892—Cyclonic storms in Kansas, Iowa, Nebraska and Illinois; many deaths.

REPUBLICAN ASCENDENCY.

From Rhode Island to the Pacific States republican victories are recorded all along the line, indicating very clearly that the lessons of democratic misrule, have taken deep root, and the party will not be tolerated longer than the time limit makes it necessary.

This radical change in public sentiment is due to hard experiences that have come to the great mass of voters during the past two years; experiences that in many cases has been a bitter object lesson. The fine-spun theories of low tariff and free trade that were unfolded in such glowing colors by democratic orators in the last campaign, and that promised so much in the way of cheap prices and better times for the toiling masses, and so much of prosperity for the farmer, have been thoroughly tested and cast aside as a delusion of the first magnitude.

The last two years have been years of education. People have had ample time to think and many of the problems of practical national life have been settled. The rank and file of humanity, that make up the large voting population of the country understand as they never did before that the greatest boon to American labor was the wall of protection established and maintained by the party that for thirty years had guided the ship of state. They realize now as they never did before that "the change" for which they voted was of necessity a change for the worse, and the democratic party is very naturally held responsible for the mischief.

Democracy said to American labor, "Wait until our new tariff law takes effect, and you will get better wages and buy goods for less money than ever before." The same party said to the American farmer: "Wait until we open up the markets of the world and your wheat will sell for a dollar, and all other products in proportion."

The laborer has waited patiently, and is still waiting. If he happened to be interested in the textile industries he has observed that during the past three months the port of New York alone, has received \$21,000,000 worth more dry goods than during the same period last year. He has gone out through the manufacturing districts in search of employment, and has found that American mills are running light and at reduced wages to meet foreign competition. He has found that twenty per cent. of fellow workmen are unable to get work at any price, because foreign labor has crowded them out. Will he vote the democratic ticket next year? Hardly.

If he is a farmer he has waited just as patiently for the dollar that never materialized, except in the brain of some democratic fanatic, whose mind was filled with free trade heresies in some American college.

These practical lessons that democracy has furnished so abundantly will not soon be forgotten. They have cost too much in privation and suffering; too much in sacrifice to ever be effaced.

Some one has said that the democratic party failed because it had no leaders and was all wings. One wing was for free trade, another for protection, another for free coinage, another for a gold standard. Wings enough to be angelic, but no one ever accused the party of even first-class morality.

The republican party isn't much on wings. Occasionally pin feathers crop out, like greenbackism, populism, third partyism, or some other ism, but the great body of the party retains its vitality and consistency and today, as never before, since the days of civil strife, the "grand old party" stands out in bold relief, as the exponent of national honor and intelligence, enjoying in a greater degree than ever before, the confidence and respect of a large majority of American voters and citizens.

The destiny of the nation is safe in the hands of the republican party, and while time will be required to undo

some of the mischief that democracy has wrought yet the future of the country is full of hope and prosperity.

OCEAN ODDITIES.

The gulf stream is 110 miles wide and from 400 to 600 fathoms deep.

Dr. Young estimates the mean depth of the Atlantic at about 16,000 feet.

The first author to attempt an explanation of ocean currents was Kepler.

The sea cucumber is nothing but a thin skin and a very capacious stomach.

Sea water is said to contain all the soluble substances that exist on the earth.

The water of the Dead sea yields about two gallons of saline substances.

An echinoderm that inhabits the West Indian seas has over 10,000 arms.

Naturalists are still in doubt as to whether the sponge is a plant or an animal.

The average depth of all oceans is supposed to be between 2,000 and 3,000 fathoms.

There are springs of fresh water in the Persian gulf that furnish supplies to vessels.

Over 7,000 varieties of microscopic sea shells have been enumerated by naturalists.

The saline matter held in solution in sea water comprises one-thirtieth of its weight.

The sea nettle stings its prey to death by means of poison secreted in its tentacles.

In a cubic foot of phosphorescent sea water there have been found 25,600 living creatures.

For a long time the coral was supposed to be a plant. Even Reaumur treats it as such.

When the gulf stream passes out of the Gulf of Mexico its temperature is about 70 degrees.

NATURE'S HANDIWORK.

A correspondents in a Leeds contemporary notes that during a recent gale a deposit of salt covered his windows, facing west, a distance of some twenty-five miles from the nearest salt water.

The wings of the owl are lined with a soft down that enables the bird to fly without making the slightest sound, a very important matter to a nocturnal bird of prey.

The Indian wheat, which has lately come into prominence in European markets, is said not to make good flour unless mixed with a percentage of the hard American variety.

Paracelsus asserted that the entire air is full of devils who are too small to be seen. He declared that these same devils are responsible for all human diseases. And so say our doctors now, only they call them microbes instead of devils, which may not make much real difference after all.

Some birds in Patagonia have a foolish habit of roosting low down, close to the ice, and in the morning may sometimes be seen the curious sight of scores of these unfortunates with their tails fast frozen into the ice.

There they are compelled to remain until the sun, by the process of melting them out, liberates the prisoners.

New Constitution for Minnesota.

St. Paul, Minn., April 11.—The house yesterday passed the Staples bill, providing for the holding of a constitutional convention, and in case they vote in favor of it the proper legislation shall be passed by the next legislature.

The house sugar bounty bill was passed by the senate.

AN EXPLANATION.

All Our Clothes Are Made in Janesville.

Some unscrupulous or jealous person has taken the liberty to circulate the report that because we made suits to order for \$15, we had the work done in Chicago sweat shops. We wish to state that we have every stitch of our work done in Janesville by Janesville people, at the highest union wages. Every person here works by the piece, none by the week, and they make as much as they wish. At present we have ten people in our employ and two more will go to work tomorrow morning. They are as follows all union people and union paid.

Sam Frieman.

Herman Bladon.

Fred Lehrke.

Louis Werner.

Edward Meck.

Mrs. F. E. Pattee.

RECKLESS SHOOTING.

He Terrorized the Residents of Clifton Street and Sent a Whole Box of Cartridges Skyward Before Boys Took a Roundabout Course and Got Chief Acheson.

James Cox filled the Clifton street air with zipping bullets at 4:30 o'clock yesterday afternoon and now he is in jail. Cox is the husband of Elvira Lord Cox and was recently sent to the poor house for six months, by Judge Phelps. He is a mason by trade and a good workman, but unhappily he is also a drunkard by inclination and a thorough one. He was sent to the poor house because the authorities didn't know what else to do with him. His time expired a while ago and yesterday he went on a tear in which his fun was of a pyrotechnical order. After buying about all the liquor that could be measured into a gallon can, he bought a revolver and a box of cartridges. Then he started out for a walk. When he reached Clifton street in the Third ward, his spirits effervesced and he pulled the new revolver from his pocket and swung it about his head. Then he pulled the trigger.

"Bang" went the gun.

People in the neighborhood poked their heads out of the windows and then hustled for cover. They saw Cox, who is broadshouldered and athletic, with disheveled hair and wild looking eyes, shooting the air full of holes. Nobody knew what minute he would decide to send a ball into something more solid than air, and nobody argued with him. Two boys were sent over back fences and in a roundabout course so get the police. They hustled down town and notified Chief Acheson.

It wasn't a pleasant prospect, this arresting a man who was crazy drunk and addicted to promiscuous target practice with a thirty-eight calibre double acting revolver; but the chief didn't stop to think about that; he just went up and got Cox. He had some trouble getting him, and for a minute it was muscle versus revolver, but the rumpus was short lived and resulted in the chief getting his man and a new revolver, too. Cox had bought a box of fifty cartridges when he acquired the weapon, but he had only a half a dozen of them left when Chief Acheson took him in tow. The rest of the balls were scattered about the stearry dome and some of them may have touched up the planets a bit for all any one knows. Cox was taken to jail and a charge of carrying concealed weapons will be preferred against him in the municipal court.

CAN'T RIDE WHEELS ON THE WALKS

Bicyclers Must Live Up to the City Ordinance, Chief Acheson Says.

Bicycle riders who do not wish to get into trouble must comply with the city ordinance forbidding the riding of wheels on the sidewalks. Many complaints have been made to Chief Acheson and he says the practice must and will be stopped. The ordinance is very clear on the subject and prosecutions will follow all violations from this on. The law gives the wheelmen the same rights in the road as accorded to any other vehicle, but they have no more business on the sidewalk than a horse and buggy. Chief Acheson wants to give all hands warning and then the music will begin.

MILITIA ARE TO BE INSPECTED.

Lieutenant W. L. Buck Will Begin His Work Next Monday.

Just when the Light Infantry will undergo the annual inspection is not now known, but the inspection of the Wisconsin National Guard by Lieutenant L. W. Buck, of the United States Army, will begin in Milwaukee April 15, beginning with the inspection of Co. H, Fourth infantry. The other inspections will be as follows: April 16, Co. D, Milwaukee; April 17, Co. G, Milwaukee; April 18, Co. K, Second infantry, Beaver Dam; April 19, Co. F, Third infantry, Portage City. Last year the inspection began in the western part of the state and in the southern part in 1893.

BUILD ON THE END OF A STORE

Hamilton Richardson Will Enlarge A. D. Sanborn & Co.'s Quarters.

As soon as the weather permits work will be begun building an addition on the Hamilton Richardson building that is at present occupied by A. D. Sanborn & Co. as a grocery. The addition will be built in the rear extending towards the alley and will be two stories high. Sanborn's grocery will occupy the lower floor while George W. Wise has leased the upper floor for an extension of his photograph gallery.

ROYAL NEIGHBORS ENTERTAINED

Very Pleasant Social Given at Liberty Hall Last Evening.

Crystal Camp, Royal Neighbors of America, entertained the members of the Modern Woodmen of America in a very hospitable manner at Liberty Hall last evening. Supper was served at 8 o'clock, and after the guests had partaken, there was an auction of cakes, jellies, meats, etc., that was left, William Marden acting as auctioneer. Daning to the excellent music of Tuckwood's orchestra followed, and lasted until midnight.

REV. SOUTHWORTH ACCEPTS.

He Will Come to Janesville as the Pastor of All Souls Church.

The trustees of All Souls church held an interesting meeting last evening, at which Rev. Mr. Southworth notified them of his acceptance of the call extended to him.

James Harris and Walter Helms, whose terms had expired, were re-elected unanimously.

HE TRAMP DIDN'T BANDY WORDS

When G. A. Proctor Grabbed the Ax the "Hobo" Got Out.

Ax in hand G. A. Proctor chased a tramp out of his East Milwaukee street tobacco warehouse and the hobo didn't come back. Mr. Proctor was working at his desk when the "bum" came in and told his tale of woe. Hard times and hard luck was the gist of the story but it sounded as if it had been often told before. An ax was left leaning against the wall within reaching distance and Mr. Proctor grasped it.

"Now you get out" he said, "some of your kind come in here about every five minutes and I am getting tired of it."

There was no argument. The tramp took to his heels and came down the street at a good rate of speed—for a tramp—while Mr. Proctor resumed his work.

THE SERVICES ON GOOD FRIDAY

Appropriate Services Will Be Held in the Episcopal Churches.

Tomorrow is Good Friday, and services will be held at Christ church as follows:

Morning prayer, litany, penitential office, 9 a. m. Sermon topic, "The Crucifixion."

Three-hour service, with an address on each of the "seven words" upon the cross, 12 m. to 3 p. m.

Evening prayer and sermon on "The Weeping Women of Jerusalem," 7:15 p. m.

The public is cordially invited to attend these services. Offerings will be received at each service for the Society for the Christianizing of the Jews.

THE COLE WILL CASE ADJOURNED.

The Illness of L. B. Caswell Makes Postponement Necessary.

The Cole will case, which was to have been heard before Judge Bennett in the circuit court at Jefferson, yesterday, was postponed on account of the illness of L. B. Caswell of Fort Atkinson, attorney for Oscar A. Cole and Eliza C. Cole, who with the city of Watertown are the beneficiaries under the will. The suit is brought by the executors to obtain a proper construction of the testament. The hearing will probably be had next week.

CLEARING UP THE FIRE WRECK

The Doty Manufacturing Company Getting Ready For Business Again.

The force of workmen at the New Doty Manufacturing Co.'s plant have been busy yesterday and today clearing up the wreck made by yesterday morning's fire. The debris has been mostly removed, and the wreck does not appear half as bad as it did at daylight yesterday morning. The building, however, is considerably burned, and some portions will have to be rebuilt.

Resolutions of Respect.

At a special meeting of Concordia Society, held at their hall on Friday evening, April 5, 1895, the following resolutions of respect were adopted:

WHEREAS, Martin Zienow, one of the oldest members of the Concordia Society, has answered the last summons and passed out from us to that home where pain and suffering are no more; and

WHEREAS, We have lost one of our oldest and most highly respected members of the society it is with profound sorrow that we record his death and

WHEREAS, We humbly submit to the ruling of the Almighty, knowing that all is for the best be it

Resolved, That we extend to his bereaved family our sympathy for the loss of a loving husband and a kind father.

Resolved, That the above resolutions be published in the city papers and a copy of the same handed to the bereaved family.

RACED WITH DEATH ON A FLYING TRAIN

SAD RIDE THAT ENGINEER LE
MAY TOOK YESTERDAY.

Telegram Said the Daughter He Had Left at Baraboo But Slightly Indisposed, Was Dying, and the Company Gave Him a Special—Fast Trip Was Too Slow.

A race between death and a railroad train started in Janesville and ended in Baraboo yesterday afternoon, and death was the winner.

When Engineer Ad. Le May, of Baraboo, left his home yesterday morning, his eighteen year old daughter, Mammie, was indisposed, but not seriously ill. Mr. Le May pulls the Chicago & Northwestern limited vestibule between that city and Janesville. He arrived here at 6:35 yesterday morning, and would have gone out with the north bound limited at 9:30 p. m. At 4:30 o'clock in the afternoon, however, a dispatch came telling him that the daughter that he had left twelve hours before in practically perfect health, was dying. Word was sent to the train dispatcher asking him if Le May could go home. The answer came quickly.

"Give Le May a special train and he will have the right of way. Spare nothing to make the fastest time possible," it read.

Standing in the round house was an engine with a full head of steam tugging on the safety valve. On a side track stood an unused caboose. The two were coupled together and a minute later the residents along the right of way heard a hoarse whistle and saw the special go tearing by. After stopping at the River street crossing the engineer pulled the throttles open. They whizzed by the brewery at a rapid gait and soon swung out of sight on the grade on the Mole farm. The orders were to "make time" and they made it, but swift as the special was, death did quicker work. When the puffing engine reached Baraboo and Engineer LeMay leaped to the ground, he hurried for his home. As he reached the front gate he saw by the faces of the people at the open door that he was too late, the death angel had come and gone.

Engineer LeMay has been on the road for thirty years, and has many friends among the railroad men, all of whom sympathize with him deeply in his affliction.

BABY CONTEST OPEN BALLOTS IN DEMAND

MUCH INTEREST IS SHOWN IN
THE CONTEST.

Five Shares of Stock in the Rock County Building Loan and Savings Association Will be Given the Winner June 1—Value at Maturity Is \$500 and It Is Non Assessable.

The polls for the Gazette contest for the babies is now open and the ballot will be found at the close of this article and will run until June 1, when the contest will close. Much interest is centered in The Gazette's offer to present the baby who gets the highest number of votes with \$500 worth of stock in the Rock County Building Loan and Savings Association. It is a prize worth getting, for naturally it will be worth just half a thousand dollars. That will be a nice nest egg if kept at interest after maturity until the child becomes old enough to want to use it.

It will buy an education.
It will buy a building lot.
It will buy a piano and the lessons necessary to play upon it.

It is more than many people are able to save in a life time.

Of course all the mothers and fathers want it for their babe. How to get it is told below:

The polls opened this morning and will remain open until June 1. The baby that receives the most ballots in that time will receive a certificate calling for these five shares of stock. There are no dues to be paid, no assessments to be met, no installments to provide for. The stock stands for \$500 in cash and on its maturity, which will be in nine and one-third years, the money will be ready. The prize is a handsome one—it is well worth winning and the conditions of the ballot are as follows:

From March 1 until June 1, a coupon will be printed in each issue of The Gazette.

Any one, anywhere in any state is entitled to vote as often as they buy a copy of The Janesville Gazette containing the above ballot.

Cut the ballot out (trimming on the dotted lines.) Write in the name of your candidate and enclose same in an envelope addressed to Ballot Editor, Gazette, Janesville, Wis.

Only one person can be voted for on one ballot.

The baby who receives the largest number of votes will receive five shares of stock in the Rock County Building & Savings Association, cash value, \$500 at maturity.

The contest will close June 1 at 9 p. m., and the stock will be delivered as soon as the count of votes is completed.

Any non-subscriber who will subscribe for The Gazette and pay in advance will be entitled to the following number of ballots:

New subscriber paid in advance one month, 100 votes.

New subscriber paid in advance two months, 250 votes.

New subscriber paid in advance six months, 900 votes.

□ New subscriber paid in advance one year, 2,000 votes.

Each new subscriber who pays in advance and casts the number of votes specified is also entitled, of course, to cut coupons from the paper from day to day and vote in the regular manner.

No person will be allowed extra votes for stopping his paper and having it sent to another name at the same address.

In every instance they must be bona fide new subscribers.

No person will be allowed to stop his paper on Monday and start it again Tuesday and claim the premium offered.

No votes can be transferred from one candidate to another after being registered in this office.

Candidates must not be more than three years of age March 1, 1895, and must live in Janesville.

THE BALLOT.

The Publishers of "The Janesville Gazette" will give 5 Shares of stock in the Rock County Building, Loan & Savings Association to the Baby who receives the largest number of ballots.

—ONE VOTE FOR—

Of Janesville, Wis.

Very Queer Indeed.

Daily, nay, hourly experienced, are the sensations of the dyspeptic, nervous invalid. Ask him and he will tell you that it is well nigh impossible to describe them. Exaltations of the heart suggest—erroneously—that the organ is affected, buzzing in the ears, a queer metallic taste in the mouth and tingling along the edges of the tongue, restless, broken slumber at night, an inclination to sleep during the day, which disappears when the recumbent posture is assumed, frequent uneasiness of the stomach between and after meals when digestion ought to have performed its office. These are a few among the indications of the complaint, specially removable by the use of Hostetter's Stomach Bitters, which also cures and prevents fevers, biliousness, constipation, rheumatism, neuralgia and kidney trouble.

A False Diagnosis.

La Grippe is confounded by many persons with a severe attack of catarrh, which in some respects resembles the former. These individuals

suffer severely with pain about the forehead, eyes and ears, with soreness in throat and stoppage of the nasal passages, and in fact are incapacitated for work of any kind for days at a time. These are catarrhal sufferers. Ely's Cream Balm has been used with the best results in such cases. The remedy will give instant relief.

Doctor H. R. Fish, of Gravois Mills, Mo., a practicing physician of many years' experience, writes: DeWitt's Witch Hazel Salve has no equal for indolent sores, scalds and burns. It stops pain instantly, heals a burn quickly and leaves no scar. C. D. Stevens.

"Sister of the Czar."

The Grand Duchess Olga, the sister of the czar, now in her 15th year, displays a remarkable ear for music. The princess is devoted to the violin, which she has learned for five years. Her teacher is the premier violinist of the court orchestra.

Really Strong Tobacco.

The tobacco raised in Beloochistan is exceedingly strong and cannot be smoked by any but the most vigorous of white men. The natives do not appear to be affected by it.

J. A. Richardson, of Jefferson City, Mo., Chief Enrolling force 38th general assembly of Missouri, writes: I wish to testify to the merits of One Minute Cough Cure. When other so-called cures failed, I obtained almost instant relief and a speedy cure by the use of One Minute Cough cure. C. D. Stevens.

Glaze, Brocade and Soft Silks Used For Separate Bodices.

It is predicted by those who ought to know that the soft sorts of silk are to be more in favor in the spring and summer than the stiff kinds to which fashion has been prone of late. No outsider would venture so to prophesy, as all the present indications point the other way. Glazes, silks, brocades and broches with plenty of substance in them, and satins which, if placed in position to do so, would "stand alone," are now used for the wide skirted dresses that are made to stand out in large flutes about the feet. The newest of the India silks and satins are brocaded with designs of the very smallest, this being a feature of the latest fashion. Miniature sprigs no

BLOUSE.

larger than the stalk of a dried currant; flowerets so tiny as to have a fairylike effect and other patterns of proportionate dimensions appear on the latest creations of silk from English and European looms. For purposes of accordian plaiting plain silks are woven in almost gauze-like lightness of texture. It is expected that the lovely chine silks, revived some three years since and always favorites on account of the soft blurring of the edges of the delicate flower tints, will be very much worn. Gauzes in similar designs are to be produced for accordian plaiting.

Separate bodices still hold their own. The blouse effect is much liked, especially in plaid silks and velvets. Some of these plaids are exceedingly pretty. The mixed scarlet ones are really more effective with a black skirt than are the plain red silks so much worn, while some of the combinations of rose and dull green, with gold colored threads, could not be improved. The blouse shown in the sketch is of violet foulard, with a white figure. It is gathered at the neck and waist, both back and front, and a wide plait of plain violet silk is carried down the middle of the front. The draped collar and the full belt, which fastens under a bow behind, are of the plain goods. The balloon sleeves have deep, plain cuffs. A jet toque trimmed with Parma violets accompanies the blouse, which is worn with a pearl gray skirt.

FASHIONABLE FANCIES.

Toques Are First Favorites, Purple and Pink Preferred Colors.

In headgear the toque seems still the first favorite, whether it be made with a plain or Tam O'Shanter crown. Gold, steel sequins and spangles as well as jet are lavishly employed in the trimming, and the riotous use of bright colored flowers in no degree abates. Diamond buckles are used in bonnets by the wealthy for such occasions as weddings, afternoon receptions and matinees. Considerable width across the top characterizes the bonnet of the moment, which, together with the toque, has often a brightly colored velvet crown. Boat shaped hats of moderate size are very much worn, the trimming being of a simple order.

Toreadors are occasionally worn, but are mostly reserved for traveling and similar uses, where simplicity is supposed to replace elaboration.

The old idea of trimming mourning bonnets with all kinds of natural flowers

SPRING GOWN.

simulated in black, silky stuffs is quite abandoned, and crape mingled with jet, black velvet with crape, black gauze with crape and such combinations are most in favor.

White or cream colored real lace is used on hats and is particularly effective when the hat itself is dark. It is usually combined with flowers, and a little jet is an advantageous addition.

Pink and purple are the colors of the moment, although there have been large importations of dress goods in the bluest shades for spring and summer wear. This color has experienced a change since it first became fashionable and has lost much of the hard, slaty tinge that was formerly one of its characteristics.

The gown of which an illustration is given is of blue cloth. The skirt is tight about the hips, but flares toward the foot. The front is trimmed in tablier fashion with two narrow points of white guipure. The bodice is plainly fitted behind, but forms a blouse in front. The upper part of the blouse is trimmed with three guipure points, and a wide lace collar covers the shoulders. The balloon sleeves have deep, close cuffs covered with guipure. The draped velvet and collar are of blue velvet. A black straw hat trimmed with black satin ribbon and yellow flowers is worn with this gown.

Carrier Pigeons.

The carrier pigeon was in use by the state department of the Ottoman empire as early as the fourteenth century. Lithgow says that a dispatch has been carried from Bagdad to Aleppo, 80 days' journey on horses, in 48 hours.

THE best investment

in real estate is to keep buildings well painted. Paint protects the house and saves repairs. You sometimes want to sell—many a good house has remained unsold for want of paint. The rule should be, though, "the best paint or none." That means

Strictly Pure

White Lead

You cannot afford to use cheap paints. To be sure of getting Strictly Pure White Lead, look at the brand; any of these are safe:

"Southern," "Red Seal," "Collier," "Shipman."

FOR COLORS.—National Lead Co. Pure White Lead Tinting Colors.

These colors are sold in one-pound cans, each can being sufficient to tint 25 pounds of Strictly Pure White Lead, the desired shade they are in no sense ready-mixed paints, but a combination of perfectly pure colors in the handiest form to tint Strictly Pure White Lead.

DR. P. H. SHARP,

The Most Successful Specialist In All

Nervous, Private and Chronic Diseases of Men and Women.

Dr. Sharp has for 20 years made a Special Study and Practice of these Maladies which have proved such stumbling blocks to the medical profession. More failures are recorded in these three lines of practice than in all the 1000 remaining diseases to which the human race is subject.

The doctor's success is phenomenal in his chosen field.

He Absolutely Cures 98 per cent of the cases he accepts for treatment.

This high percentage is in part due to his rejection of all incurable ones. So there are no experiments and but few failures.

YOUNG MEN troubled with results of younger indiscretions can be safely and surely cured. I know it.

MIDDLE-AGED MEN can have a new lease of vitality.

OLD MEN can take a new hold on life and its joys.

WOMEN can find not only relief but positive cure for their many annoying and dangerous ailments.

Lemorrhea, Painful Menstruation Delayed or Obstructed, Menstrual Periods, Headaches, Ovarian Inflammation, Etc.

FREE TREATMENT.

For one week, commencing Thursday, April 4, Dr. Sharp will give free treatment to all patients till they are cured.

BIG CANAL IS FEARED.

British Shipowners Are Anxious About
the Nicaragua Project.

London, April 10.—Replying to a question
in the house of commons, Sir Edward
Gray, parliamentary secretary
to the foreign office, said in case the
construction of the Nicaragua canal
was proceeded with the government
would take steps to insure that British
trade was placed on the same footing
as that of other nations.

In answer to another question Sir
Edward said the government was
aware that the United States had ap-
pointed a commission to inquire into
the feasibility of the plans for building
a canal across Nicaragua to connect the
Atlantic with the Pacific, but Great
Britain could not appoint a commission
to co-operate with the United States
commission unless the government of
the United States was desirous Great
Britain should do so.

Venezuela Grateful to Uncle Sam.

Washington, April 10.—President
Crespo of Venezuela has sent a special
message to the congress of Venezuela
concerning the attitude of the United
States on the British-Venezuela ques-
tion. Immediately on receipt of the
president's message the congress passed
resolutions amid great enthusiasm
heartily thanking the United States for
its sympathy and support. The people
are getting up a monster popular peti-
tion breathing the warmest apprecia-
tion for the support of "The Great Re-
public of the North."

Iowa Women Deprived of the Ballot.

Cedar Rapids, Iowa, April 11.—Judge
Thompson, in the District court, has
handed down an opinion in the contest-
ed school election case, holding that
the Iowa law granting women the
right to vote in school and municipal
elections and on tax levies is unconsti-
tutional, on the ground that the consti-
tution of the state provides that only
male citizens may vote.
